

# Best Practices 2019 WPSD

*First Published September 2019*

The inaugural World Patient Safety Day took place on September 17th, 2019, where World Health Organization (WHO) introduced the global initiative to raise awareness about patient safety and encourage individuals to prioritize making healthcare safer by speaking up for patient safety.

This document summarizes the list of best practices on **2019 WPSD-Speaking up for Patient Safety** from key stakeholders and patient safety champions from Africa:
